EDUCATION

B.E. in Information Technology G.H. Rasoni College of Engineering

06/2018 - 06/2022

Nagpur, Maharashtra

WORK EXPERIENCE

Web Development Intern The Sparks Foundation

03/2021 - 04/2021

Achievements/Tasks

- **Build Backend Functionality:** Developed backend logic and functionality using Python and related frameworks.
- **Integrate APIs:** Integrated APIs to connect web applications with external services and databases.
- **Implement Server-Side Features:** Implemented server-side features to enhance website performance and functionality.
- **Database Management:** Helped in setting up, maintaining, and querying databases (e.g., MySQL, MongoDB) to store and retrieve application data efficiently.
- **Code Reviews:** Engaged in code review processes, providing feedback on peers' code to ensure quality and adherence to coding standards.
- **Wrote Unit Tests:** Developed and executed unit tests to validate the functionality of backend services, ensuring that new features did not introduce bugs.

Digital Marketing Intern Teztecch

07/2021 - 12/2021

Achievements/Tasks

- **Developed Responsive Websites:** Designed and coded responsive websites to ensure seamless user experiences across various devices.
- **Implemented Front-End Features:** Integrated front-end functionalities using HTML, CSS, and JavaScript to enhance website interactivity and user engagement.
- **Optimized Web Performance :** Analyzed website performance metrics and implemented optimizations (e.g., image compression, code minification) to improve load times and overall efficiency.
- **Tested Web Applications:** Conducted functional testing of web applications to ensure all features worked as intended, reporting any discrepancies for further action.
- **Troubleshoot and Fixed Bugs:** Engaged in debugging sessions to identify and resolve issues in existing codebases, improving application performance and user experience.
- **Collaborated on Projects:** Worked with a team to contribute to various web development projects, sharing ideas and collaborating on coding tasks.

Firebase

Responsive Design

PROJECTS

QuickMart

- Developed a versatile shopping app that allows users to explore a wide selection of products, create personalized shopping lists, and make secure payments. The app includes features like exclusive discounts, user-friendly navigation, and a seamless checkout process for a smooth shopping experience.
- Technologies: React ,JavaScript , CSS, Firebase.

CINEQuest

- Designed and developed a user-friendly platform that combines an extensive film database with social features. CINEQuest allows users to track movies, discover new films through curated recommendations, and share their film experiences through discussions, creating an engaging movie community.
- Technologies: React , TypeScript, Tailwind CSS.

Code Editor

- Developed a simple and efficient code editor tailored for developers, featuring real-time syntax highlighting, multi-language support, and Git integration. The editor enhances productivity with customizable themes and keyboard shortcuts, making it ideal for both mobile coding and full development environments..
- Technologies: React , JavaScript, CSS.
